

Metal Appliances are Mandatory Recyclables

*Includes Appliances that are composed mostly of metal:
Stoves, washing machines, dryers, water heaters, refrigerators, freezers,
air conditioners and dehumidifiers....*

ENVIRONMENTAL HAZARDS -

- Refrigerators, freezers, air conditioners and dehumidifiers contain CFCs.
- CFCs contribute to ozone depletion.
- By Federal Law, CFC appliances must be recycled carefully, keeping Freon lines intact.

DISPOSAL OPTIONS -

- When buying new, have store take back old appliance.
- Donate newer, working appliances to Habitat for Humanity's "ReStore"
<http://www.habitatbcnj.org/restore/donate>
- Recycle through your local municipal collection or dropoff program (if available).
- Deliver to County Resource Recovery Complex in Florence; call (609) 499-5300 for details.
